- Print / purchase the Teacher Manual, Student Books and Games Pack required for the group. If printing, games will need to be printed double-sided, laminated and cut.
- If students require a phonological awareness (PA) activity to be added to lessons, administer David Kilpatrick's PAST to identify areas of need. Use this data to choose one-minute activities from Kilpatrick's 'Equipped For Reading Success' or to select appropriate activities from your existing school PA Program.
- Design routines to ensure lessons are run effectively and efficiently - such as routines for:
 - > collection of books and resources

 - > elimination of distractions
 - > responding to questions (hands up / popsticks / cold call)
 - > returning of students to their class
 - > consistency of space to work in
 - > process of giving feedback to classroom teachers.
