

## Phase 6 Week 27: Root -vid(e)- -vis(e)- (see) and

Root -ord- -ordin- (order/row/series)

1. Write in your book the meaning of the roots -vid(e)-, -vis(e)- and the roots -ord-, -ordin-.

|                     |                                |                             |                      |
|---------------------|--------------------------------|-----------------------------|----------------------|
| re-<br>in-<br>tele- | <b>vid(e)</b><br><b>vis(e)</b> | -ion<br>-ible<br>-it<br>-or | -ary<br>-ation<br>-s |
|---------------------|--------------------------------|-----------------------------|----------------------|

2. Write as many REAL words as you can using this matrix. *Remember: read from left → right. Not every morpheme can connect with every root or suffix; your finished word must be a real word.*

|                                      |                            |                            |                           |
|--------------------------------------|----------------------------|----------------------------|---------------------------|
| re-<br>dis-<br>co-<br>sub-<br>extra- | <b>ord</b><br><b>ordin</b> | -er<br>-ary<br>-al<br>-ate | -ed<br>-ly<br>-or<br>-ion |
|--------------------------------------|----------------------------|----------------------------|---------------------------|

3. Write as many REAL words as you can using this matrix. *Remember: read from left → right. Not every morpheme can connect with every root or suffix; your finished word must be a real word.*
4. Write 5 of your own interesting sentences that include:
- At least one word from each matrix.
  - A conjunction, adjective and adverb.
  - COPS your work and focus on correct letter formation.

## Phase 6 Week 27: Root -vid(e)- -vis(e)- (see) and

Root -ord- -ordin- (order/row/series)
