3. Choose two words from each list and explain your thinking.

4. Read these words and write a brief sentence for each in your book explaining what this person does.

3. Choose one **fore-** or **for-** AND one **-or** word from this week's lessons and write a morphology clue for someone at home to solve. For example: *My prefix means "front". My base is part of your body. I am the part between your wrist and elbow. What am I? Answer: forearm*
